Will Canvass Town For Heart Fund

On Valentine Sunday, Feb. 14, some 200 Andover men and women will call on their neighbors in the community; they will call as representatives of the Andover chapter of the Massachusetts Heart association, and they will be there because they care. They care that year after year in our own community, and throughout the country, one of every two deaths is caused by heart diseases. They care that this terrible toll has been cut and can be lowered more and more by research, education and community services.

Salvation Army Campaign Opens

Andover's quota in the Salvation Army drive which will run all this month is \$4500, Atty. Richard K. Gordon, general chairman for Andover has announced.

Committees have been formed for the campaign and teams will be soliciting funds under various divisions intended to cover all sections of the town. Donations may be left at the R. J. Macartney store, 5

The 1954 town warrant contains requests for appropriations of approximately \$1,772,379. Departmental budgets total \$1,449,410 and the special articles \$322,969. In the latter is an item of \$60,000 free cash to reduce the 1954 tax rate and offset appropriations voted at the town meeting.

The total amount which voters at the town meeting will be asked to pass upon is the largest in the history of the town.

Not all of the articles call for appropriations. One is to see if the town will accept 12.21 acres of land on Red Spring road from Helen E. Hardy. This land is in back of the old sand and gravel pit and adjoins the Indian Ridge reservation. About three-quarters of a mile from the center of the town it might be developed into an area for recreation.

An article inserted by the selectmen calls for the payment of \$342 to Henry L. Hilton and \$333 to George L. Williams, under the Acts of 1947. Both men are members of

Taxpayers Ass'n Favors Merger

The Andover Taxpayers' association under its president, George A. Grant of Dale st., is considering the town warrant and each director has been assigned certain articles to investigate.

The association two years ago suggested the merger of the tree department with the BPW. In this connection it now states:

The board of public works is tightening up the requirements for the acceptance of new streets as public ways.

These are brought up at this time and explained in connection with the present discussions regarding proposed planning and zoning measures that are expected to come up at town meeting.

In its statement the board says: In view of the increasing interest in the control and planning of land subdivided for residential use, the board of public works wishes to point out that it has certain requirements in this direction which should be considered as closely

4-H Night

Thursday evening, Jan. 28, at the North District schoolhouse 4H night was observed when 33 4-H boys and girls and their parents were the guests of the N.D.I.A. Following the regular monthly business meeting the boys and girls gave a resume of their achievements during the past year.

The girls, who call themselves "The Busy Wizards" and hold their meetings weekly under the leadership of Mrs. Russell Holmes, gave a demonstration 4-H meeting, starting with their pledge. Their president, Nancy Hird, conducted the meeting and the secretary's report was read by Beverly Hird. This report listed the past activities and included future plans. They recently completed a project of selling 4-H cookies to help defray expenses to Camp Leslie. They have arranged a trip to a silver company in Newburyport, wish to visit a woolen mill, and will hold contests, judging fashion and win-

dow displays.

They displayed their projects: knitting, crocketing, beginner's and advanced sewing.

Mrs. Holmes is assisted in her work with these girls by Mrs. Andrew Fischer, Mrs. Delphine Sullivan and Miss Grace Tricky.

The cooking classes of the group, which are led by Mrs. Clarence Sanborn and Mrs. James Smith, supplied an attractive assortment of cookies for the refreshment table.

Under the leadership of Austin Basso the boys gave a most impressive recital of their list of prizes won in various fields.

Joseph Basso won the sweepstakes award at Topsfield fair with a New Hampshire pullet and second prize for a dozen large eggs. He won third prizes at the Boston Poultry show for a New Hampshire hen and a dozen eggs.

Ronald Tellier received the following: 6th prize in the Chicken of Tomorrow contest at Brockton; second and third prizes on eggs at the Boston Poultry show; first and second prizes at Topsfield for White American pullets.

Santo Ardizzone received first and second prizes at the Topsfield fair with his New Zealand white rabbits and a second prize at the Boston Poultry show.

Walter Potvin, Ronald Tellier and Joseph Basso received a first prize at Topsfield with a forestry exhibit. Walter Potvin also received first prize for a dozen large eggs at the Boston Poultry Show.

Bernard Levesque has received a second prize for his watermelon.

Arthur Levesque received first prize with seven White Americans in another contest. He received a first and two second prizes with vegetables. Recently he received a fine large Holstein cow for outstanding work in 4-H.

Barry Skiba received first prize with a New Zealand white rabbit and a first and second for vegetables.

Daniel Sheehy received second prize with a New Zealand white rabbit and for his vegetables one first and two seconds.

Grange Notes

Andover Grange was the guest of North Andover Grange on Monday evening when they celebrated their Past Master's night.

The Help-A-Long club of the grange will meet tonight at the home of Mr. and Mrs. Theodore Peterson on Pine st. Any Grange members are welcome.

Friendship Pomona Grange will meet in West Boxford Saturday, Feb. 6, for an afternoon and evening meeting, starting at 4:30 o'clock. Supper will be served by the West Boxford members.

On Feb. 9 the regular meeting of Andover Grange will be held with an illustrated lecture by Miss Louise Sherman. Refreshments will be served by a committee headed by Mr. and Mrs. Michael Bell.

Notes

The monthly square dance will be conducted at the West Parish vestry at 8:15 p.m., Feb. 5.

The beautiful flowers on the altar of the church last Sunday were the gift of Mrs. Frank Hardy in loving memory of her husband.

The Junior Woman's Union will hold its February meeting at 8 p.m., Thursday, Feb. 11. Mrs. Clayton Northey, the president, will preside and plans for the year will be discussed.

A regular meeting of the Busy

Wizard 4-H club of Andover was held on Jan. 21 at the home of Mrs. Philip Holmes on River rd.

Personals

The Lathrop Merrick family have moved from their former home on Shawsheen road to their newly built home on Canny road, Durham, N.H.

Mr. and Mrs. Wolfgang Berthold, from New Jersey, have moved into the Merrick house on Shawsheen road.

Mr. and Mrs. Archibald MacLaren Jr., have moved into their newly built home on Reservation road.

Patricia Lewis, daughter of Mr. and Mrs. Roger Lewis of Laurel lane, fractured her arm while at play on the West elementary school grounds and is confined to the Lawrence General hospital.

Visiting at their homes following midyear exams are Bruce Stewart and Richard Hudgins from Norwich university, Judith Marland and Tony Sullivan from University of Massachusetts and Arlene Pariseau from Lasalle Junior college.

The many friends of Mrs. Margaret Little of Shawsheen road were grieved to learn of the death of her mother, Mrs. Jones, who had lived with Mrs. Little for many years.

B.P.W. TIGHTENS REGULATIONS

(Continued from Page One)

meshing with planning and zoning requirements.

The board's particular interests center around the roadway and utility features of any proposed subdivision, it being the board's duty to report favorably or unfavorably on the general fitness of private ways for acceptance when so requested by the Selectmen. For sometime the Board of Public Works has had fairly well defined requirements for roadway, sewer, water, and drain construction. These requirements, altho in effect for sometime prior, were published in August of 1952 for the first time.

It is believed that the planning board may adopt, or be empowered to adopt, certain similar regulations and requirements under articles planned for insertion in the 1954 annual town meeting. This is felt to be a further step in the right direction toward improving the general welfare of Andover and its citizens. The board of public works favors this as an additional means of enforcing their regulations.

Under the present arrangement the board of public works will not recommend the acceptance of a private way unless the following requirements have been met to the board's satisfaction:

1. Roadway right-of-way cleared of all obstructions other than desirable shade trees.

2. Traveled way and shoulders to be properly constructed of suitable materials, to proper depth, cross section, and profile in conformance with the acceptance plan and on a suitable sub-grade.

3. Sanitary sewer mains and appurtenances, constructed in accordance with good engineering practice. In locations where sewers cannot be drained to the town sewer system by gravity this requirement may be waived.

4. Water mains and appurtenances, including hydrants for fire protection, constructed in accordance with the present and future requirements of the water department.

5. Surface water drainage system including catch basins, ditches, and piping where necessary to properly dispose of all storm water, together with legal easements for storm drainage where necessary.

Item (2) above has recently been amended to include the requirement of a two coat surface treatment of road tar or asphalt on all streets proposed for acceptance after the annual town meeting of March 1954.

The foregoing is a brief summary of the minimum requirements set forth in the board's "Construction Requirements For Private Ways Which Are To Be Petitioned For Accepting As Town Public Ways". Copies of these requirements are available at the town hall, and all real estate developers, builders, engineers and other interested persons should familiarize themselves with their contents before entering into land development work in Andover.

These requirements are established and maintained for the good of the town and its residents; for the purpose of assessing the costs of normally accepted improvements against the land directly improved, rather than calling on all property owners of the town to pay, via taxes, for the development of special land areas. This would be the case were unimproved streets to be accepted casually; because human nature is such that what suffices very well for a private way no longer satisfies the residents of a street once that street becomes an accepted street. Hence almost immediately demands would arise for water mains, sewer mains, drainage facilities, etc., were they not already in place before acceptance.

It is felt that the firm enforcement of these requirements results in a better town and in greater fairness to the majority of taxpayers. At the same time it tends to reduce the number of half-hearted or dormant subdivisions, of which there have been so many in the past.

PLANNING GROUP DISCUSSES ZONING

ters, has two articles for consideration in the town warrant.

The first is to amend the zoning laws to provide larger house lots in single residence districts; and,

The second to have the moderator appoint a committee of seven or nine to study zoning problems and appropriate \$2500 therefor.

John Radford Abbot, architect, became chairman and named the following persons to the committee: Atty. Fredric S. O'Brien, Norman L. Miller, Donald B. Look, Mrs. Eric Jones, Roger Lewis and Raleigh Bright.

The amendment to the zoning by-law is regarded as a temporary stop-gap, says the committee in a statement made this week.

"The zoning problems of Andover," the statement continued, "have become so complex that much intensive study will be required to deal with them adequately. The committee strongly feels that professional aid should also be sought."

"The present committee has held frequent meetings since its inception, including one to which local builders and realtors were invited, and another jointly with the Planning board."

"The purpose of the committee has been to determine whether the zoning regulations allow for proper future development of the town, recommending improvements if necessary."

"The committee is strongly in favor of immediate action, and since the time has been too short for adequate study, is recommending temporary control of subdivisions by means of increasing lot sizes and frontages."

"Within circles of one mile around the town house and one-half mile around Ballardvale fire station and Shawsheen square, 15,000 square feet lots with 125-foot frontages are to be required, and beyond those limits, 25,000 square foot lots with 150-foot frontages."

"Eventually it is hoped that the boundaries of the different districts will be determined by street lines, after adequate study and consultation with local experts including the board of public works, the board of health, the town engineer and the school committee...."

"A two-thirds majority vote of the town meeting is required to make any changes in the zoning by-law."

"The committee feels that due to the relocation of Route 28 and the opening of the new Western Electric plant in North Andover that Andover "is faced with subdivisions of numerous small houses on an unprecedented scale."

This, it found, was the experience of the town of Natick. "As a result," it says, "the tax rate has gone up \$7 this year and is going up another \$7 next year to provide for schools, sewer extensions and other town services."

Citing the town of Lexington which has recently increased lot-size requirements, the committee says: "Mr. Abbot received the information from the chairman of the Lexington Planning board that their biggest problem has been out-of-town developers desiring to build subdivisions of 100 or more small houses. Lexington's population has increased 50 percent since 1947 due primarily to two new express roads, the Concord turnpike and Route 128."

The committee on town affairs of the League of Women Voters also attended the meeting the committee held with the planning board and a report will be given at the next unit meetings to be held at 9:45 a.m., Feb. 9 in Williams Hall, and at 7:45 p.m., at the home of Miss Helen S. Yeau. Mrs. Eric Jones, a member of the committee who is serving as secretary of the lay committee, will give the report.

Proposes Plans For Relocation Of Route 28

Proposed alternate plans for the relocation of Route 28 through Andover and adjacent communities have been submitted to the cities and towns affected in order that they might express their views on which of the two would best solve the problem.

The proposed relocations of Route 28 from the New Hampshire line to the Metropolitan Boston area would pass through Andover, one in the westerly section and the other easterly.

Public Works Commissioner John A. Volpe stressed that these plans are tentative and explanatory and under no circumstances could be construed as a guarantee that the proposed relocation would be an immediate eventuality. He said no funds are available for the project but the department intended to have its planning well along so that construction could be started more rapidly when funds were made available.

Before outlining these tentative routes Commissioner Volpe urged that people residing and doing business on or near the lines not get unduly disturbed. He said owners of properties that are included in the final line will be given ample notice to make any necessary adjustments of residential or business locations.

The proposed westerly route would enter Andover west of Lowell Junction, pass westerly of Ballardvale center, cross Dascomb road between Lovejoy and Clark roads, cross Route 133 (Lowell street) between Lovejoy and Argilla roads, cross River road just west of the junction of North street, cross the Merrimack river over a new bridge, pass to the west of St. Anne's orphanage in Lawrence and west of the Methuen business center to the New Hampshire line.

The proposed easterly route would enter Andover in the Harold Parker state forest just west of the old military police camp, cross Route 114 west of Boston Hill, cross the junction of Marbleridge and Salem streets in North Andover, go east of North Andover Center, cross to the east of Stevens pond, turn northwesterly to the east side of Sutton's pond, cross the Merrimack to a point just west of the Burke hospital, cross Route 110 at the junction of East street, continue to Marston's corner and westerly to the New Hampshire line.

Would Cancel Action On Rent Control

The selectmen Monday night voted to insert an article in the town warrant to see if the town will vote to rescind the action taken at the special town meeting last August which continued rent control here.

The article adopted at that time declared that a shortage of rental housing accommodations existed here and that control of rents was necessary in the public interest.

After the rent control was established and opened an office in the town house it had very little business to transact. It held a public meeting about two weeks ago to learn if a substantial rental housing shortage existed, and shortly afterward voted to decontrol maximum rent ceilings. The board still remains in existence and continues its regular office hours from 2 to 5 p.m., Tuesdays at the townhouse.

A large delegation from Johnson acres was present at the meeting in support of a petition to allow Cheever circle to be used for coasting. Only the week before this was taken off the list of streets for coasting.

After the hearing the board decided to continue coasting on the street.

A change of management at Fred's Lunch, Inc., 19 Essex st., from George W. White to Lewis S. Clement, at present a resident of Ipswich, was approved by the board subject to approval of the ABC commission.

A delegation was present from Sutherland street in support of a request to have the town accept as a public way Sutherland Street extension.

It was explained to the delegation that the board of public works is having difficulty in approving that extension because of the sewerage and drainage problem there due to the contour of the land. The proposal is still under study.

ESCAPES INJURY IN AUTO ACCIDENT

Mrs. Thomas A. Farragher, 65 Carmel rd., escaped injury when an automobile she was operating Monday morning skidded on the ice opposite 160 High street, went through a fence and over an embankment, according to a report by Andover police. Patrolman Robert Deyermond investigated.

Which Part is most important?

THE ANSWER, as you know, is that the engine and the steering wheel are *equally* important. If either part were missing, the car couldn't function.

The same principle applies to our American industrial system: it takes *both* "Capital" and "Labor" to make it work.

With willing investors to *provide* tools, and skilled workers to man them efficiently, American industry has reached the highest level of production in history — and Americans enjoy the highest living standard.

Would any reasonable person deny the investor's right to a fair return for risking his savings, any more than the worker's right to a fair wage? Of course not.

Communists, however, aren't reasonable people. They desperately want to break up our "winning combination." But when they trot out their phony arguments, trying to set one group against another, Americans just look around them and reply "Our system really *gives* us what you only *promise*. We like what we've got — and we'll keep it!"

Another winning combination: Americans and the nation's banks in which they deposit. Our staff believes that our bank's success depends largely on the success we help our depositors to achieve. On that basis, we invite your account.

Scouts Observe Birthday

One of the nation's outstanding organizations, the Boy Scouts of America, is observing its 44th birthday next week, Feb. 7 to 13.

This has been designated as Boy Scout week in honor of the "young men of tomorrow", some 2,440,000 strong, who make up this noted youth group.

These youngsters with their adult leaders enjoy the "game of scouting" in three distinct programs, cub scouting, boy scouting and exploring, each appealing to boys of various age levels.

We seldom stop to think that this great work is made possible largely through the active sponsorship of the church, the school and other community institutions. But perhaps even more significant, is the fact that some 860,000 adults share their time as volunteer leaders with the boyhood of America.

Theirs is a devoted service. A large number have served many years.

Boy Scout week this year has been dedicated to honoring the cubmasters, the scoutmasters and the explorer advisors, — the men who bring scouting directly to the boys.

It is their influence on the scouts of today that help mould these boys and young men into better citizens and better proponents of the American way of life.

These unselfish men who give leadership in scouting are performing an outstanding act of citizenship. Our nation owes them much.

Suggestion for rising young legislators: don't seek a name by proposing a new law. Instead, specialize in repealing old ones. Practically every state has on its books statutes which have no bearing on modern life. — Cuero, (Tex.) Record.

Opposition is proof that you are on the right track.

TRICHINOSIS by Science Features

Modern kitchen and sanitary conditions have reached a new high in efficiency but that hasn't stopped the spread of the ancient disease of trichinosis—acquired by eating raw or poorly cooked pork.

The United States, the best fed country in the world, has highest

rate of trichinosis according to the Public Health Service. Their survey showed that one in every six is affected in varying degrees.

The disease is carried by microscopic worms, called larvae, that are imbedded in the muscles of pigs. When the infected meat is eaten, the larvae are reproduced in the body and carried in the bloodstream to the muscles.

Eye infections characterized by puffing and secretion, fever, aching muscles and other symptoms occur a week after eating the infected pork. No definite cure is known for the disease, but cortisone and the new hydrocortisone drugs have been successful in remedying the painful effects.

Super-cortisone such as Cortil have cleared the eye infections faster than any other drug, according to Dr. E. H. Steffensen of the Henry Ford Hospital. The new drug is also available in liquid form for injection into sore areas.

Several Bequests In Woman's Will

Several bequests were made in the will of Jennie M. Hall of 43 High st., who died Jan. 16 at the home of her daughter in Pennsville, N.J., it was revealed when the will was filed last week in Probate court at Lawrence.

Real estate valued at \$15,000 and a personal estate of \$125 were left by the deceased. Helene F. King of Pennsville, N.J., a daughter was named executrix.

The following bequests were made: to Nellie Meehan of Worcester, \$200., to Mabel E. Marshall of Andover, \$100., to the Friendly Service committee of the Women's Union of the South church, Andover, \$50.

The remainder of the estate was left in three equal shares to her three daughters, Mrs. King, Frances M. Graham of Silver Springs, Md., and Ruth Graham of Wickliffe, O., who were also left household articles and jewelry.

NAMED CONSERVATRIX

Anna M. Greeley was appointed by Judge John A. Costello in Probate court at Salem last week as conservatrix of the property of Mrs. Jessie McIntosh of Andover. A bond of \$1000 was filed.

Down the Years with The Townsman

50 Years Ago — February 1904

A special electric which left the square at 8:30 a.m. yesterday conveyed a large delegation of Grangers to West Newbury to attend the Pomona Grange meeting there.

The academy student indicted for ringing a false alarm has been discharged in superior court, the district attorney declining to ask for a conviction and the jury returning a verdict of not guilty by order of the court.

A Lawrence-to-Andover electric just reached the railroad bridge on Main street last Saturday night when a fuse blew out. The airbrakes refused to work and the car rolled backwards down the hill at a high rate of speed, coming to a standstill near the Curran & Joyce estate. The car was crowded, many passengers were frightened, but with no other car in sight there was no danger of collision and a panic was averted.

A class in physical culture has been formed by a number of young ladies of the Free church. A physical culture class for women has been organized by the same teacher in the Grand Army hall.

Considerable anxiety has been felt on account of the number of scarlet fever cases among the children of the Vale. All cases so far have been light ones.

On the beach at Ormand, Fla., Jan. 27, W. K. Vanderbilt Jr., the New York millionaire auto enthusiast, drove his machine in an officially timed mile in 39 seconds, a new world's record.

The political pot is beginning to boil mildly, only one contest being on at present, that between S. H. Boutwell and W. S. Donald for selectman. The contest promises to be lively.

25 Years Ago — February 1929

The widening and rebuilding of North Main street, a matter that has been debated for the past 25 years, is expected to come up for action at the town meeting next month. The matter of a new junior high school also appears to be due for a hearing.

Kirk R. Batchelder of Lowell st., and Harry I. Emmons of York st., were injured in Lawrence last Tuesday when the auto in which they were riding was in collision with an electric car on Newbury street. Both were taken to the hospital and released after treatment. William H. Midgley of S. Main st., and Alfred Emmons of Methuen, who were also in the auto, were shaken up but unhurt.

Miss Mary Geagan of Ballardvale and Fred E. Cheever of Bancroft rd., will be candidates for reelection to the school board. Ernest A. Johnson of William st., will not seek re-election. H. Gilbert Francke of Main st., has taken out nomination papers for the office.

The police shelter in Shawsheen square was destroyed by fire early

Sunday morning. The blaze started from an oil burner. It was discovered by Officer John Deymond, who was on duty in the square. He threw the burning heater outside but because of the intense heat could not return to the shelter for his equipment. He and Officers Dailey and Walker lost equipment and clothing. Because

the alarm did not register the correct number at the fire station a delay was caused which allowed the oil from the heater to spatter the woodwork and make it an easy prey for the flames.

10 Years Ago — February 1944

The BPW will ask funds for a snow-sand loader at the town meeting and the selectmen will sponsor an article for a new 500-gallon pumper to replace the 30-year-old piece housed at the Vale fire station.

The selectmen will sponsor an article to allow the town to purchase the Shaw property, another authorizing them to rent it, and a third asking \$2500 for an engineering study to ascertain the best use of the land for town purposes.

The tin collection last Sunday netted eight tons.

Few contests loom in the town election. Candidates still have until tonight to file papers.

The resignation of Miss Mary Angus as a teacher in the local schools was accepted with regret by the school committee Tuesday evening. It was announced at the meeting that a budget of \$197,000 had been approved by the finance committee.

The salary question for town employees may become a town meeting free-for-all unless some definite policy is lined up. Two meetings have been held by town officials but the general feeling is that each department should handle its own problems.

Educator To Speak In Church Series

The main speaker at the second of the University of Life series which will be held Sunday at the Free church will be Dr. Edwin Prince Booth, who has been teaching at the Boston university School of Theology for 29 years.

The subject of his address is "The Christian Church and Civil Liberties."

Recently in an article about Dr. Booth and his great contribution to education and religion, the Christian Science Monitor said: "His work has not kept him within the walls of Boston university. His biography lectures have taken him to churches as far west as California."

Dr. Booth has written a number of books on religion but they are few in number in comparison to the men whom he has helped train for the Christian ministry.

The bride wore a street length dress of ice blue, a white velvet hat and a white orchid corsage. Mrs. Paul Wake Jr., of Danvers, as matron of honor, wore a dusty pink dress with black accessories and a corsage of mixed flowers.

Paul Wake Jr., of Danvers, was the best man.

A reception in the South church parsonage followed the ceremony with guests present from Danvers, Middleton and Andover.

Following a wedding trip to New York City the couple will reside at 7 Locke st.

The bride is a graduate of Danvers high school and was employed in a business office in Danvers.

The bridegroom was recently discharged from the army after serving three years, 26 months of which was spent in Europe. He is associated with his father in business.

DAVIDSON - LINDAHL

At a 4:30 o'clock candlelight ceremony Saturday in the Church of Christ, Dartmouth college, Hanover, N.H., Miss Martia Alice Lindahl, daughter of Prof. and Mrs. Martin L. Lindahl, 12 Woodrow rd., Hanover, N.H., became the bride of Leon John Davidson, son of Mr. and Mrs. Leon Davidson of Lowell st. Frank McCarthy was the soloist. The altar was arranged with white snapdragons, gladioli and chrysanthemums.

Given in marriage by her father the bride wore a gown of ivory satin fashioned with a low neckline outlined in lace and seed pearls, and a bouffant skirt which ended in a chapel length sweep. Her fingertip veil of illusion was attached to a Juliet cap of matching lace and she carried a small bouquet of white hyacinths centered with an orchid.

The bridal attendants included Miss Elizabeth Lindahl of Hanover, as maid of honor, and the Misses Janet Waggoner, Irvington, N.Y., Rosemary Davidson of Andover, Jane Hastie of Hanover, N.H., Nancy Keefe of Norwell, Dale Blandin and Mrs. John McIntyre of Hanover, N.H., were the bridesmaids. All the attendants wore ballerina length gowns of tulle over taffeta, the maid of honor in pink and the bridesmaids in rose. Colonial bouquets were carried by all.

Charles Davidson of Andover served as best man for his brother and the ushers were: Gerald, Ronald and Branton Henderson of Phil-

Mrs. Leon John Davidson
(David Pierce Studio)

adelphia, Pa., John Sutherland of New York City, Laurence Hollman of Cambridge, Frederick Flather III, and Bernard McParland of Andover.

A reception in the Hanover Inn followed the ceremony after which the couple left on a wedding trip to Canada.

The bride attended Carleton college, Northfield, Minn., and was graduated from the University of Vermont in 1952. She is a secretary at the Sheraton Plaza hotel, Boston. Mr. Davidson is a graduate of Phillips academy and Harvard college in 1953. He is a member of the Hasty Pudding club and a past president of the Pi Eta club. He holds a commission in the air force and will report to Sampson air base in February.

Punchard 52, Saugus 44

Punchard had to stage a second period rally to keep up with Saugus on the local court last Friday night but after pulling up within one point of the visitors by the end of the second half the Blue Devils continued to click and went on to win 52-44.

Paul Whitley, down with a cold, did not start the game but when the home team was trailing seven points midway through the second half he entered the contest and got the Blue Devils rolling.

Playing right forward Capt. Billy Stack rung up 22 points while Dyer scored 12 and Whitley 10. Diamond with 23 was high scorer for Saugus.

The Punchard JV team romped away from their rivals 39-18.

The sewing class under the direction of Mrs. Henry Boucher has started a new project. It will make roller skating skirts and costumes to take care of the increasing number of entrants in the Primary, Junior and Intermediate girls' classes.

The increasing number of parents who "Stop in" at the Youth Center is very encouraging. Director Donald D. Dunn reports that in many cases after parents have toured the center they express amazement that there is so much available to the youngsters of the town that they never knew existed.

The sewing class is open to all girls of the center where they may receive instruction in crocheting, knitting, weaving, braiding and sewing.

Monday evenings from 6 to 9 o'clock are Girls' nights when all facilities of the center are turned over to the girls under the direction of Miss Joan Rizzo. Business girls and working girls may join these classes by calling or visiting the center, 10 Brook st.

Protest Garbage Disposal On Roads

As the result of many complaints, police are going to vigorously prosecute offenders who throw garbage on the highways or on private property without permission.

If a motor vehicle is involved in the case it may result in the offender having his license suspended for 30 days along with the fine that is imposed for such violation.

The law says that "whoever, in disposing of garbage, bottles or rubbish on a public highway or within 20 yards thereof, or upon private property, without permission, commits a nuisance thereby, shall be punished by a fine of not more than \$50. If a motor vehicle is used in committing such nuisance a conviction under this section shall forthwith be reported by the court to the registrar of motor vehicles, and the registrar may suspend the license of the operator of such vehicle for not more than 30 days, and if it appears from the records of the registrar of motor vehicles that the person so convicted is the owner of the motor vehicle so used, the registrar may suspend the certificate of registration of said vehicle for 30 days."

COURTEOUS CIRCLE

Courteous Circle of The King's Daughters will meet Monday, Feb. 8 at 7 p.m., for a business session. Members are asked to bring gifts for a silent auction.

64. To determine disposition of unexpended appropriations and free cash in the treasury.

65. To act upon report of the town officers.

66. To transact any other business that may legally come before the meeting.

Polio Paper Drive Sunday A Success

The paper drive held last Sunday in connection with the annual polio campaign was a huge success.

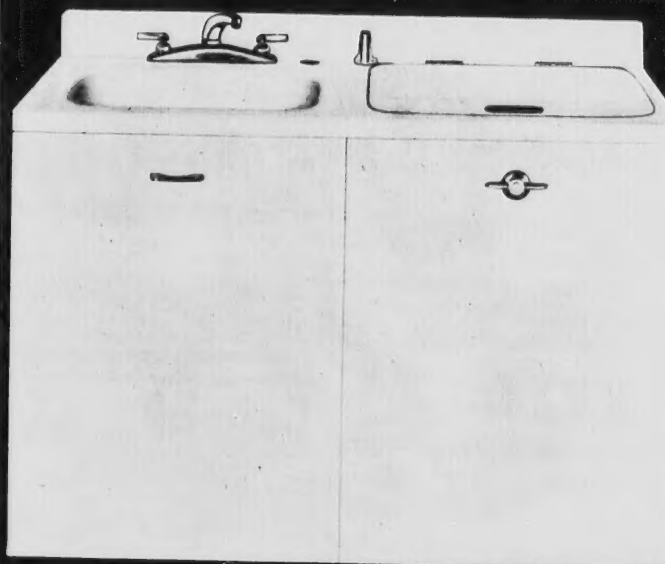

According to Co-chairmen James Deyermund and Ray Laftosa over 52,000 pounds of paper were collected by the many volunteers.

The chairmen are grateful to the

people of Andover for making this drive so successful and also want to thank the people who volunteered their time and their trucks for this project.

During the afternoon coffee, milk and doughnuts were served the workers by the Andover Firemen's auxiliary.

**Sportsman's Club
To Meet Tuesday**

The Andover Sportsman's club will hold a regular business meeting at 8 p.m., Tuesday, Feb. 9 at the club house.

Chester Harnden, chairman of the ways and means committee, requests that all reservations for the annual supper to be held Saturday, Feb. 13 be completed at this meeting. The supper is open to members and guests. This includes ladies, who will be admitted for the first time.

**TAXPAYERS' ASSN.
FAVORS MERGER**

(Continued from Page One)

"Our further studies have convinced us that our tree department which plays a very important part in the beauty and economy of our town can be carried on more efficiently if merged with the public works department.

"Members of this department who so ably care for our trees and parks should be retained in the capacities in which they are most capable. . . They would also have use of the more extensive equipment of the public works department without duplication of units if this merger were to be authorized by the voters."

**WILL CANVASS TOWN
FOR HEART FUND**

(Continued from Page One)

They know as volunteer helpers how the money contributed by this community of Andover will be used to carry on this work that is so vital to the lives and well being of all. They know that 60% of the funds raised through the people of Andover will remain here, where the benefits are available to all through hospitals, doctors and other services.

Twenty-five percent of the fund is forwarded to the American Heart association for scientific research that must be done on a national scale; and 15% remains with the Massachusetts Heart association to be used on a statewide basis.

The Andover committee hopes that these solicitors will be received in the same spirit of friendly willingness to help others that has prompted them to offer their services.

Elects Collier Baseball Coach

Robert Collier was elected varsity baseball coach at Punchard by a vote of the school committee Tuesday night at a salary of \$400. He has been coach of the JV baseball and basketball teams. Collier succeeds Richard Preston who has left the local school faculty.

The election was made on a motion of Sec. William A. Doherty seconded by Mrs. Dorothy Partridge.

On another motion by Mr. Doherty seconded by Mrs. Partridge the board authorized the sending of a boy and a coach — John Cole and Bob McIntyre — to the national interscholastic track meet in New York Feb. 20 and to the Bowdoin interscholastic championship meet at Brunswick, Me., in March. Cole, an outstanding shot putter will try for new records at these meets.

All members were present with Gordon L. Colquhoun, chairman, presiding.

On motion of Charles C. Kimball seconded by Miss Anna M. Greeley the board approved the warrant of bills and accounts in the amount of \$6174.48.

On motion of Mrs. Partridge seconded by Mr. Kimball the board approved the P.H.S. Athletic association warrant in the amount of \$658.49 and on motion of Miss Greeley seconded by Mrs. Partridge approved an athletic warrant of \$1458.

A letter from the Perley Gilbert Associates of Lowell asking for consideration as architects in any new building construction was referred to the school building committee.

On motion of Miss Greeley seconded by Mrs. Partridge the Shawshen cub scouts were granted use of the Shawshen school on Saturday mornings.

On motion of Mrs. Partridge seconded by Mr. Doherty the board authorized the superintendent to purchase 50 reading circle chairs at \$5.10 each, six 15-in. chairs at \$5.10 each, and ten 16-in. chairs at \$7.15 each from the Milton Bradley Co., the lowest of several bidders.

Supt. Erickson advised the board of the need of an additional steam table for the cafeteria in the Central elementary school.

It was voted to hold the next meeting Tuesday, Mar. 16, the change being due to the annual town meeting Mar. 8.

On motion of Mr. Doherty seconded by Mrs. Partridge the board adjourned at 8:58 p.m., establishing a record for recent years for the brevity of the session.

"POP" WILSON NEARS 83RD BIRTHDAY

(Continued from Page One)

The double birthday anniversaries this month find both in good health and both still engaged in routine activities. "Pop" is behind the counter at the store on Main street every day where he has been for the past 25 years since he came here from Amesbury.

Mrs. Wilson still performs her daily household duties and takes active interests in affairs of the town.

"Pop" says he appreciates very much the patronage given him by townspeople since he has been here and is grateful to his son, P. LeRoy Wilson who with Mrs. Lewis W. Muise assist him in his business.

He is in good health and enjoys meeting his friends as he goes about his duties every day.

\$3696 Collected In Mothers' March

The annual Mothers' March on Polio last Thursday night was most successful as the 256 women who braved the freezing weather reported \$3696.50 collected in their canvass.

A year ago the mothers set the high mark of \$3373.39 in their house to house campaign for funds to fight polio, but last Thursday's effort surpassed this figure.

J. Woodrow Crowley, who was chairman for Andover with Fire Chief C. Edward Buchan, reports that the 1954 sum may yet be increased as there are a few more sources to hear from.

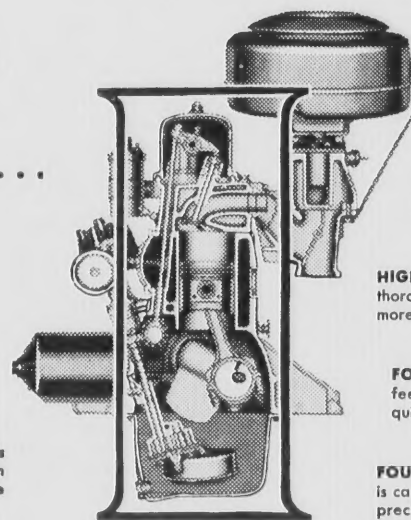

In the entire campaign during the month of January several activities were undertaken to raise funds for this drive and a report on the entire amount collected in the town will be made later.

The most modern SIX

*The new 115-h.p. I-block Six is
the only completely modern six-
cylinder engine in the industry...
the only low-priced Six with
all these features!*

DEEP-CAST I-BLOCK with skirt that extends below the crankshaft, provides the great strength and rigidity needed for smooth, quiet engine performance and extra long engine life.

FREE-TURNING OVERHEAD VALVES make possible greater high-compression power, longer valve life.

SHORT STROKE, LOW-FRICTION DESIGN gives you more usable horsepower, with less engine wear.

HIGH-TURBULENCE COMBUSTION CHAMBERS thoroughly mix fuel and air for faster, more efficient combustion.

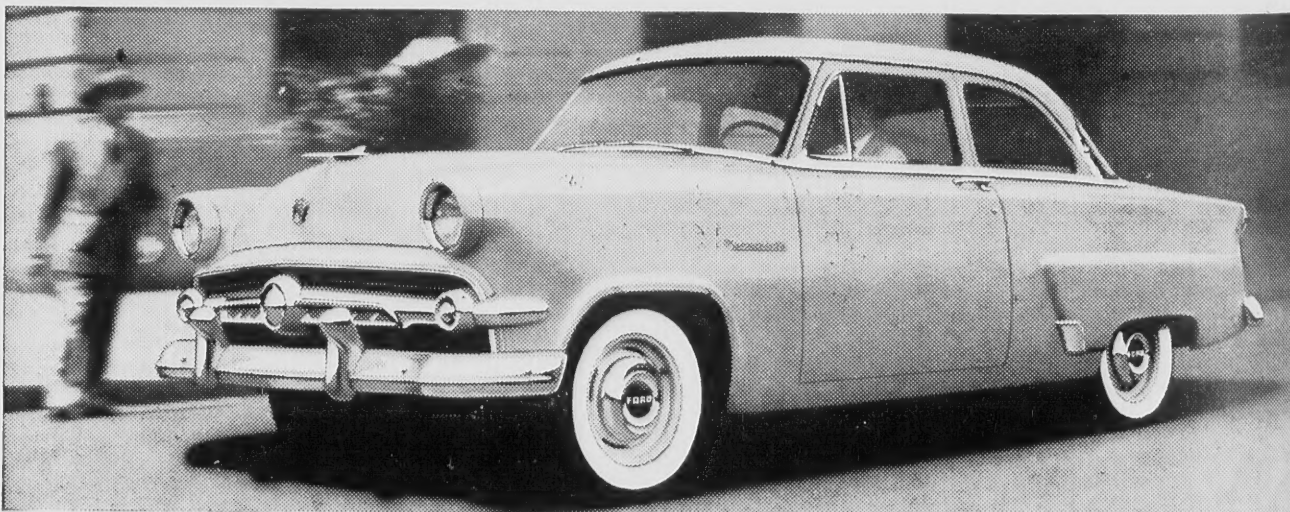

FOUR-PORT INTAKE MANIFOLD feeds fuel fast and uniformly for quick starts and smooth "GO."

FOUR-BEARING CRANKSHAFT is cast rather than forged for more precise balance and smoother operation.

The savingest SIX

*No other six in America offers
the short-stroke, low-friction economy
designed into this new Ford engine!*

Ford's new Overhead-Valve I-block Six, with its completely modern high-compression, low-friction design, brings you even better gas economy than last year's Ford Six... the Six (with Overdrive) that beat all other cars, regardless of size or price, in the 1953 Mobilgas Economy Run Sweepstakes. And this year's Six also gives you a dividend of 14% more horsepower!

Come in and Test Drive the new 115-h.p.

Ford Overdrive optional at extra cost
